Cake layers vs tiers

what is the difference?

cake layers

The actual layers of cake that make up a single cake or tier. I most frequently make 2 or 3 layers per cake or tier, but they can really be any number. Layers are separated by buttercream frosting and/or filling.

this single-tier cake has 3 layers

cake tiers

Different sizes of full layer cakes that are stacked on top of one another. A tier may be thought of as a cake in and of itself. Tiers are separated by cake boards and structure materials.

this 3-tier cake has 9 layers (3 per tier)
